CHING-YAO CHAN’S RECENT PUBLICATIONS, 2015-2019

• P. Wang, C-Y Chan, Arnaud de La Fortelle, “A Reinforcement Learning Based Approach for Automated Lane Change Maneuvers,” IEEE Intelligent Vehicles, June 2018.

• P. Wang, C-Y Chan, J. Wang, S. Fang, "An Examination of Traffic Patterns at Signalized
Intersections via Use of a Network of Discrete Sensors," 14th World Conference of Transport
Research, Shanghai, China, July 2016.

• X. Li, C-Y Chan, Y. Wang, “A Reliable Fusion Methodology for Simulation Estimation of
Vehicle Sideslip and Yaw Angles, “IEEE Transactions on Vehicular Technology, Vol. 65, No. 6,
ISSN 0018-9545, pp. 4440-4458, June 2016.

• P. Wang, J. Wang, C-Y Chan, S. Fang, “Trajectory Prediction for Turning Vehicles at
Intersections by Fusing Vehicle Dynamics and Driver’s Future Input Estimation,

• X-M. Chen, et al, "Bionic Lane Driving Decision Making Analysis for Autonomous Vehicle
Under Complex Urban Environment,” Transportation Research Records, No. 2559, pp. 120-130,
2016.

• C. Nowakowski, S. Shaldover, C-Y Chan, "Development of Behavioral Competency Requirements to
Determine the Readiness of Automated Driving Systems for Public Operations", Transportation Research

• P. Wang, C-Y Chan, A. Muralidharan, S. Fang, “Minimum Sample Size Study Based
on Time Series Analysis of Traffic Flow Data at Intersections,” Advances in

Congress 2015, Bordeaux, France, October 2015.

• T-H Wu, C-W Yi, C-Y, Chan, “A Preliminary Study on SPC-Crowd Pavement Indexing,
“The Asia-Pacific Network Operations and Management Symposium (APNOMS) 2015, Busan,
Korea, August 2015.

• C. Nowakowski, S. Shaldover, C-Y Chan, H-S Tan, “Development of California Regulations
to Govern the Testing and Operation of Automated Driving Systems,” Transportation

• Y. Du, Y. Wang, C-Y Chan, “Autonomous Lane Change Controller,” IEEE Intelligent Vehicles
Conference, Seoul, Korea, June 2015.
CHING-YAO CHAN’S PREVIOUS PUBLICATIONS, UP TO 2014

Book

Book Chapters

Archival Journal Publications (21)

Refereed Conference and Symposium Proceedings (78)

• J. Huang, C-Y Chan, “Enforcement Strategies Based on ITS Technologies for Overweight Commercial Truck Operations in California,” ITS Asia Pacific, Malaysia, April 2012.

Technical Reports (40)

• J. Huang, C-Y Chan, K. Jang, “Evaluate High-Potential Areas for Overweight Trucks and Truck Bypassing,” University of California PATH Report, May 2013.

Dissertation and Thesis
